30 May – 3 June 2022, Munich

Under the patronage of:

Deutscher Akademischer Austauschdienst
German Academic Exchange Service

Under the patronage of:

Bundesministerium
für Umwelt, Naturschutz,
Bau und Reaktorsicherheit

Dear readers,

Once again, we are looking for sponsors for our competitions at the IFAT 2022. Competitions are not only held in sport, but also in professions. In this way, we promote young employees (apprentices and students), search for new talents and also motivate the professionals in wastewater technology.

The initiative "Learning in Competition" was launched by the DWA in 2010. We use it to promote team spirit, motivation and knowledge transfer between employees. You can support us in this – with equipment, prizes and also financially.

You can contribute your equipment in the education area, are welcome to sponsor prizes or choose from our offers for financial sponsors. In this way, you can make an important contribution to the DWA's education work and get in direct contact with the highly motivated operating personnel and our jury.

For the University Challenge we have been able to win over the DAAD as a patron. The Water Skills is also supported by the IFAT trade fair and the Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety as a patron.

The competition has also been copied in Egypt, Jordan and Tanzania. The idea has "taken off", so fly with us and become part of the "family". Please get in touch if you have any questions.

R. Heidebrecht

Your Rüdiger Heidebrecht
Head of the Department Training and International Cooperation DWA
